

DEVELOPING AND PROMOTING CONSTRUCTION CAREERS THROUGH EDUCATION AND TRAINING

Construction Leadership Series

Developed by industry experts for tomorrow's leaders

"This leadership series is important for the industry because much of the content is not taught elsewhere but is learned on the job, sometimes at great expense. This is a way for me to help an industry that has given me much more than I could ever give back."

-Lee Kilcup, GLY Construction (retired)

Partnering with industry leaders, the AGC Education Foundation is launching Construction Leadership. This comprehensive leadership skills training series is created for select individuals with 10-plus years of industry experience who have been identified by their companies as one of tomorrow's leaders.

"Learn today and apply tomorrow" approach:

- Pre-assessment followed by seven modules of training
- Company mentors will participate in selected activities throughout the series
- Assigned reading and homework
- Instruction by subject matter experts
- Industry panelists providing multiple points of views and case studies
- Network with fellow attendees, panelists, and industry guests
- Certified by the AGC of Washington and the AGC Education Foundation

Price per student: \$2,890*

Limited space available. 16 people maximum.

**Price includes all modules, lunches for full-day classes, and assessment.*
