

Supervisory Training Program (STP)

AGC's Supervisory Training Program (STP) is a construction-specific training curriculum developed, updated and field-tested by and for contractors. Supervisory skill—or the lack of it—directly affects every company's bottom line. You make your money in the field, and STP can help you improve your organization's bottom line. This comprehensive six-course program focuses on the knowledge and skills that every supervisor must have to be an effective manager of people, time, equipment and materials.

Designed for busy construction professionals!

Four modules per unit | Independent study

“I credit my success as a supervisor to the AGC's STP curriculum and instruction from the AGC of Washington Education Foundation. My motivation to teach these courses stems from my desire to ensure that we have quality employees leading the industry.”

-Dave Scott, Superintendent

STP is a nationally recognized training standard that has been the professional development resource of choice for more than 130,000 construction supervisors and managers. Individuals who complete the six primary STP courses will have the option to apply for the national AGC Supervisory Training Program Certificate of Completion.

STP TOPICS INCLUDE:

Unit 1 | Leadership & Motivation

Unit 2 | Communication

Unit 3 | Planning & Scheduling

Unit 4 | Contract Documents

Unit 5 | Improving Productivity & Managing Project Costs

Unit 6 | Risk Management & Problem Solving
